

## Good-bye song

Adios farewell

Here's my good-bye song

We have shared some joy today

But now we'll say 'so long!'

Cause now it's time to go

All things come to an end

But we can part as friends

And I hope we'll meet again

Wanna see you again

And until then

May your skies always be blue

May the sun shine for you

Till we meet again

Adios, farewell, so long

I love to be with you

Wish that we could stay

But you and I have things to do

And other games to play

Now it's time to go

All things come to an end

But we can part as friends
